# COMMUNITY SEED BANK

Very much appreciated the idea of presentation  
Very interested to know about CSB

HOW TO WORK

Hey, Jaya Bahadur! Where you coming from? What you got there old friend?

Hello there, Harke. Just got some seeds from community seed bank. I lost my seed due to the drought last year.

Community seed bank? What is that?

You don't know? It's a life saver! There is a Farmers' Group Office next to the VDC office. They have seeds of different varieties of several local crops. It is managed by farmers like us. Weren't you looking for seed yourself? You should surely visit.

Sounds great! I had been thinking where I would get seeds of Ghiupuri rice, aromatic sponge gourd and Kartike cowpea. Now I know where to go.

Namaste Harimaya! Wow... so many varieties of seeds! What do you recommend for upland? Also I want 2 KGs of Ghiupuri rice variety, Kartike cow pea and aromatic sponge gourd.

Interested in agricultural biodiversity? If yes, Please visit the nearest community seed bank for information and seeds of diverse crops.
